

Raymond Recorder

VOLUME 36

FRIDAY JULY 23rd. 1943

NUMBER 14.

Let's Get Busy --- Stamp Out The U Boat

Raymond's Stamp Out the U Boat campaign is going strong. Jones bakery has one almost filled up in its window. One is on display in the Recorder window filled by the Rotary Club. Vely's Barber Shop has one in its window almost filled by the members of the Lion's Club and others are having stamp-ograms added to them daily.

The Department of Finance has agreed that all War Savings Stamps sold during July will go for the purchase of depth bombs for the destruction of the U Boat, and judging all of Canada by the response in Raymond, Hitler's U boats will certainly catch it with the charges purchased by these sales.

The campaign ends July 31st so if you haven't got your name on one of the slips and pasted on one of these big sheets yet, better get busy and get it there and add your bit to the drive to stamp out the U boat.

LIBRARY BOARD MEETING

The regular meeting of the Library Board was held last evening with all members present. One important decision of the meeting was that all Library Cards, regardless of when they were issued, would expire between August 1 and September 1 of each year. Readers should bear this fact in mind and govern themselves accordingly.

The holidays this year will be from August 1st to 15th. Read the notice elsewhere and be governed accordingly.

The Board instructed the Secretary to purchase the supplementary reading books for the new High School course just as soon as the new list is received. The annual report was accepted as presented and the list of new books added for the past month enumerated.

The much overcrowded conditions of the Library were discussed and the hope voiced that before too long the Council would get started on the proposed new Library building.

NEWS NOTES

Miss Marie Piegrass of the CWAC is home from Calgary on two weeks leave.

P. D. Bennett of Lethbridge, is spending a few days with his parents here and is giving B.A. a bit of help on the farm while he holidays.

Let's fill our five Stamp Out the U Boat sheets. You can get stamps at the Post Office, Stone's or the Merc. Our quota is \$360.00. Let's see that we go over the top. Four stamps puts your stamp-o-gram on the sheet. DO IT TODAY.

T. K. Roberts and his crew are at work now on the new home of Mr. and Mrs. Bert Powelson, which is being built where the old Miff Alred home stood at the north end of Broad way. Forms are being put in for the concrete for the basement which Ralph Bros. dug last week.

Elder J. Ross Mendenhall returned Wednesday evening after filling a two year mission in Eastern Canada. Mr. and Mrs. Mendenhall met him in Lethbridge when he arrived on the evening train from Medicine Hat. Ross looks fine and like all missionaries says it was the best two years of his life.

Bank Of Montreal Crop Report

General—Crop prospects are promising in Manitoba and satisfactory in most areas of Alberta and Saskatchewan. High temperatures throughout the Prairie Provinces during the past week have promoted rapid growth. Wheat is mostly in shot blade and heading is becoming general in some districts. Moisture conditions are satisfactory throughout Manitoba, but rain would be welcome over most of Alberta and Saskatchewan and is urgently required in some districts. Losses from hail and pests have been small. Weeds are troublesome in some districts. Sugar beets are making fair progress in Alberta and good progress in Manitoba. In the Province of Quebec, recent warm weather has stimulated growth and progress is satisfactory, except in low-lying areas where there has been damage from excessive moisture. Harvesting of an excellent hay crop is in progress. Pastures continue in very good condition. Corn and root crops show good growth, except in low lands where damage is reported. Moisture is ample and continued warm weather would be beneficial. In Ontario, crops generally continue to make satisfactory progress under favourable weather conditions, although rains would be welcome in some areas. Fall wheat is ripening rapidly and cutting will be under way within the next few days. Prospects for spring grains vary considerably and total yields will be below average. Corn and roots are showing good growth. In the Maritime Provinces, heavy rains in most districts have caused some damage and, while warm weather has been beneficial, all crops are about two weeks late. In British Columbia, crops generally are improving with somewhat warmer weather. Most tree fruits have had a heavy drop and yields will be light. Pickling of cane fruits has commenced and a fair yield is indicated. Field crops are now making good growth.

Alberta—Warm weather has forced rapid growth and wheat is heading out over large areas. In west-central and northern districts crops are developing satisfactorily. Part of the east-central area needs rain and lack of moisture continues in the south, where serious deterioration has occurred. Hail damage has been light. Sugar beet crops are making fair progress. Saskatchewan—Crops in districts where moisture is satisfactory are making good progress. General rains would be welcome. The dry area along the south-western border is spreading and crops in the central and north-central sections are beginning to show signs of deterioration. Slight damage from hail and high winds has occurred in scattered areas. Pest damage is small. Manitoba—crop conditions are promising. High temperatures and timely rains during the past week have promoted rapid growth. Moisture reserves are satisfactory. All crops show an even, healthy stand and wheat is heading out well. Pastures and hay crops are in excellent condition. Sugar beets are progressing favourably.

Buy War Savings Certificates.

George Fairbanks Passes Suddenly

George Fairbanks, aged 74, father of a large family and one of the early residents of our town, passed away very suddenly Saturday morning from a heart attack. He had complained of pains in his abdomen during the morning, and his wife left him to come up town to see the Doctor. When she passed the home of her son Harold, she asked him to go down and stay with his father until she returned. Harry went to the family home at once, but when he arrived his father was dead, having passed away in that short interval.

Deceased was a man of high standing in the district. He operated a farm until his retirement a few years ago and raised a fine family of boys and girls. He was always busy in his church, and for many years served as ward teacher and teacher of the High Priests group in his ward.

Left to mourn his loss are his wife and the following children: Mrs. LeRoy Anderson, Harold Mrs. Nephi Anderson, Ray, Walter, Mrs. Douglas Eddington, William H. and Paul.

FUNERAL SERVICES

Funeral services were held Thursday afternoon in the 2nd Ward Chapel with Bishop L.L. Palmer in charge. The hall was packed with friends present to show their respect to the memory of deceased, and the lovely flowers were silent tribute to deceased and family.

The Choir under the direction of Jos. McLean with Mrs. Emma Dahl at the organ and members of both ward choirs present sang "Sweet Hour of Prayer" followed by prayer by O.H. Snow, and the second number was a solo "The Teacher's Work is Done" by J.O.A. Stevenson.

Elder J. W. Evans, former Bishop and now President of the High Priests Quorum of which deceased was a member was the first speaker. He spoke of the life of service of deceased, and how he had always been

taking the liberty to copy here: "Known botanically as Medicago sativa, to some as lucerne, but to most by its Spanish name of Alfalfa, the plant was brought from its native habitat in South western Asia and introduced into Mexico and South America by the Spaniards before the days of the Armada. It is said to have been brought from Chile to California in 1854, whence it spread rapidly over the western States and became the chief forage crop there, as it has since in many parts of Canada.

Alfalfa won early favour because of its prolific growth and its remarkable resistance to drought, due to the deeply penetrating tap root and consequent ability of the plant to draw moisture and nutrients from the lower soil layers. Alfalfa is a legume, and, in common with other cloves, beans, and peas, possesses the faculty of absorbing nitrogen from the soil atmosphere by the aid of its root nodule bacteria.

Alfalfa assumes now a position of greater importance than ever before, because of its high protein content, and there is at

present an alarming scarcity of protein supplements needed so urgently in the feeding of cattle pigs and poultry.

Alfalfa is not only a source of protein but also of the essential vitamin "A", commonly referred to as the growth vitamin. Cattle which consume large amounts of roughage obtain usually all the vitamin 'A' they need, but it is otherwise with pigs and poultry whose diet is largely of grain. For these alfalfa meal is a valuable supplement to the grain ration.

Provided with favourable climatic conditions, alfalfa will thrive on most any kind of soil that has good drainage and low water table but is sensitive to acidity. Alfalfa responds to fertilizers high in phosphate and potash, which may be applied in the Fall.

Since the digestibility of the protein diminishes as the crop approaches full maturity alfalfa should be cut when the first blooms appear. Some say when ten per cent of the crop is in flower; but if one waits until then, the whole field may be in full bloom before harvesting has progressed very far. Besides early cutting improves the prospects for the second crop."

GRASSHOPPERS AND FLAX Last Fall there was considerable loss of flax due to grasshoppers cutting the stem just below the heads. In areas where grasshoppers are numerous this, will likely occur again. If young grasshoppers are prevalent in fields near to flax you will be well advised to spread poison bait at once. The hoppers are still too small to travel by wing and can be poisoned over small areas. Inquire of the District Agriculturist about where to obtain poison or write directly to Alex Robblee, Court House Lethbridge.

Four Airman Killed In Crash At Welling

Pres. J. Reuben Clark Jr.

who with Bishop Joseph L. Wirthlin will speak at a special meeting in the Stake House tonight at 8

The Rotarians spent most of their time Monday, after a very fine dinner, filling up the Stamp o-Gram sheet with War Savings Stamp Sales. Congratulations to the Rotarians.

Let's fill our five Stamp Out the U Boat sheets. You can get stamps at the Post Office, Stone's or the Merc. Our quota is \$360.00. Let's see that we go over the top. Four stamps puts your stamp-o-gram on the sheet. DO IT TODAY.

The hoppers are still too small to travel by wing and can be poisoned over small areas. Inquire of the District Agriculturist about where to obtain poison or write directly to Alex Robblee, Court House Lethbridge.

Four airmen of the No. 8 Bombing and Gunnery School were killed in a crash Sunday morning just in the edge of J. H. Wilde's barley field, a mile south and about half a mile west of the Welling Junction. The plane nosed into the ground and exploded from the impact of the landing, killing all four fliers.

The ambulance was rushed out from Lethbridge and the bodies of the victims removed, and later forwarded to their homes, three of them to Edmonton. F. O. Heacock was in charge of the flight.

Details of just what happened are not known, but the plane seemed to take fire in one of the engines while over Stirling, and the men apparently tried to gain altitude to make a parachute jump, some believed and when over Welling, they apparently decided to try a forced landing but the nose of the plane struck in a low depression just in the edge of the barley adjoining the summerfallow lying next.

A truck from the school has been hauling the wreckage of the plane away and little remains now to mark the scene of the tragedy. A crowd was on the ground almost as soon as the plane hit and burst into flames, but the officers present, kept them back a good distance while the fire was brought under control and the debris cleaned up.

ATTENTION! BOYS 16, 17, 18

We draw the attention of young men 16, 17 and 18 to the Fourth Compulsory Employment Transfer Order printed elsewhere in this issue. Read it carefully, and if you are affected by its provisions, then do not delay in registering with the National Selective Service at Lethbridge so that the information asked for may be in their hands. Read it and read it carefully.

NEWS NOTES

Sgt. Mark Dahl, home on leave for two weeks is spending part of this week in Cardston and Waterton with friends and relatives.

Because of the heat, a midnight crew worked part of the week on the insulation over the ceiling of the Locker Storage rooms at the Cheese Factory.

Let's fill our five Stamp Out the U Boat sheets. You can get stamps at the Post Office, Stone's or the Merc. Our quota is \$360.00. Let's see that we go over the top. Four stamps puts your stamp-o-gram on the sheet. DO IT TODAY.

Elder Howard Hamling of the Tyrell's Lake branch, arrived home from the mission field Tuesday night after a two year's mission in Eastern Canada. He was released on July 10th and spent a few days visiting with his sister Helen, in Calgary enroute.

Mr. and Mrs. Carl Shields, now living at Trail, B. C., are visiting for a week or so with relatives and friends here and is working in the Smelter at Trail and likes his work fine. He will return the first of the week but his wife and kiddies will remain and visit here for a while longer.

IN A WORLD AT WAR

We are living in a wonderful age. Possibly an odd statement, but none the less a true one. In an age where things are moving at lightning speed and what is news one day is forgotten about the next as new and far reaching events take place. To keep up with all the news is a physical impossibility. A person hears the radio, reads the news lines, completes what is of greatest interest to him, and forgets it all, waiting for the next day to bring its broadest of important events.

These things are not without their effect on humanity. While we shiver at the carnage and bloodshed and destruction the war brings, we glow with pride and admiration when we hear of Allied victories, the capture of 40,000 or 50,000 enemy troops, the destruction of a hundred or so tanks, a couple of hundred airplanes and the wiping out of two or three airfields or train centres. Put down the property loss in dollars and cents of one day's activities and losses on both sides, and it will eclipse any figure that the ordinary mind can comprehend. Is it any wonder then that our governments talk in billions instead of millions as they did a few years ago?

Where will it all end? Six or seven million dollars for an air field, spent like it was so many mere dollars. A billion & a half

for this that or the other and for some of us wonder why. We go to the store for some article we want and we don't get it and we complain. Should we? We are still unmolested by belligerent bombings or shelling. We have no blackouts to worry us. We move about with full freedom, although some non-essential transportation schedules are discontinued and we are asked to conserve gas. We have hundreds of thousands of men and women in the uniform of their country to help retain this freedom. Labor is plentiful, nearly everywhere there is money enough for their needs and to spare, and still we complain.

Really, we ought to appreciate the blessings we enjoy. We ought to buy and buy heavily. Bonds, Certificates, and so on to add in the fight, and we ought to let our men and women in the service know without any doubt that we are behind them all the end. That we are a part of the war may not be our affair, but as long as we are part of the war, we can and must do what we can individually and collectively to do our bit to see that it ends as soon and as completely as possible.

WAYS TO STRETCH YOUR CANNING SUGAR

The burning question of the day is how to can 35 to 40 quarts of fruit for each member of the family with 10 lbs. of sugar and still have a little for jam or jelly. Thirty-five to forty quarts of fruit per person may seem a lot, but if you are following Canada's Official Food Rules you will use this much and more.

The following suggestions are made by Miss Vera Richards, of the Department of Agriculture Extension Service.

1. With a syrup of 3-4 cup sugar to 1 cup water (a little better than a thin syrup) You

will have sufficient syrup for 1 quart of large fruit. This would preserve 26-23 quarts of fruit with 10 lbs of sugar. But small fruit requires less syrup and 1-2 cup sugar to 1-2 cup water would give us sufficient syrup for 1 quart of small fruit. With this syrup we could preserve 40 qts of small fruit. Hence we can expect to preserve at least 30 quarts of small fruit with our 10 lbs of sugar. However when sugar was a big item in our fall budget many found a thin syrup of 1 cup of sugar to 3 cups water quite satisfactory and with this syrup at least 60 quarts of fruit could be preserved.

2. Sugar is not necessary for the actual preservation of canned fruits. It is perfect processing and perfect sealing that counts. Fruits may be canned without sugar, preferably in their own juices—if the fruit is not of the juicy type, water is used. This fruit of course will require some sweetening when served, but some sugar may be salvaged from your ration, or honey or syrup used. If these are not available then you may feel justified in using saccharine for sweetening. Although it is about 300 times sweeter than sugar it is a somewhat more expensive sweetening. It has no food value and should not be used if sugar or honey is available. Do not cook a product with saccharine in it as a very bitter flavor will result.

WOMEN AID PARATROOPERS

Women have invaded another man's field in the Canadian Army, no less than the paratroopers.

The first of her sex to be attached to the Canadian Parachute Training School at Camp Shilo, is Private Marjorie Perry of St. Boniface, Man.

Private Perry, a member of the Canadian Women's Army Corps, will not be schooled as a soldier jumper but as a 'rigger' who will be charged with the care & maintenance of 'chutes.

It isn't as exciting a job as that of leaping from planes, but nonetheless important and interesting. Major R. F. Routh, acting officer commanding the school, pointed out there is a definite field for women in parachute work because they can relieve manpower for other duties by packing and otherwise maintaining the silken bags.

It will take about two weeks to train a competent girl to pack 'chutes, and a month to repair and look after them.

One of the most meticulous phases of a paratrooper's course is how to pack his 'chute prop

SEEDTIME and HARVEST

By Dr. K. W. Neatby
Director, Agricultural Department
North-West Line Elevators Association

For Farm Boys

Farming requires a wide variety of skills and a lot of knowledge. The farmer must be a mechanic to get the best out of machinery, a botanist to recognize weeds and mixtures in his crops, a breeder to select the best sires and dams, a nutritionist to fit his stock for the market economically, a pathologist to recognize and control diseases in his crops and livestock, and so on. In addition, he must be a business man and a useful member of his own community.

Our colleges of agriculture have done wonders in training men who wish to devote their lives to research and experimentation; but this is not all. They also provide courses for those intending to farm. These courses do not pretend to teach a boy how to farm, but they do teach him a lot about farm problems that cannot be learned at all, or only with great difficulty, elsewhere. In addition to much useful knowledge of crop production, livestock management, and agricultural engineering, the student mixes with farm boys from all over his province, and learns something of their problems. He returns to his farm a better farmer and a more useful citizen.

Agricultural training is offered at the School of Agriculture, Olds, Alberta; the University of Saskatchewan, Saskatoon; and the University of Manitoba, Winnipeg. Write to these institutions for information on School of Agriculture courses and short courses in special subjects.

Extra copies of this article will be obtained from line elevator agents.

NEWS NOTES

Frank Rutten of Lethbridge was a Raymond visitor Thursday of this week.

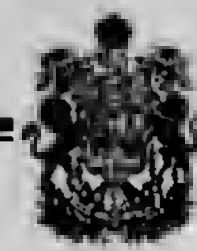

Mr. and Mrs. Roy Woolley returned the first of the week after a short holiday trip.

A Bruce Robinson man has been at the Cheese Factory nearly all week repairing the middle one of the three freezing units and soldering the gas lines leading into the coolers.

Mr. and Mrs. F. G. Summers left on their holiday trip Wednesday and will spend a few days in Edmonton where Mrs. Summers' folks live and then continue on to their farm in the Grand Prairie district. During their absence Merle is taking charge of the milk.

erly, how to dry it and how to keep it in repair. He will still have to learn all that, but much of the time-consuming routine of maintenance may in future be handled by the CW ACs.

A want ad will tell it—sell it—trade it—or rent it. Try it!

NATIONAL SELECTIVE SERVICE

Fourth Compulsory Employment Transfer Order

A Direction to Specified Employers and Employees

This Order applies to any young man who is 16, 17 or 18 years of age, and who is working at any one of the employments specified in this notice. It is also directed to the present employers of these young men.

A. Objective:

The Order provides for the transfer of the young men affected, to work which is of more importance to Canada's war effort. Transfers will be made after taking into account the health and domestic circumstances of these young men.

B. YOUNG MEN WHO ARE AFFECTED:

Every young man who is in any one of the employments specified, who has reached his 16th birthday but has not reached his 19th birthday, is covered by this Order.

C. EMPLOYMENTS SPECIFIED IN THE ORDER:

This Order applies to the young men described above if now employed in any of these occupations:

(1) Any occupation in or associated with the following: (a) barber shops and beauty parlours; (b) distilling alcohol for beverage; (c) dyeing, cleaning and pressing, hatts, guide service, shoe shining; (d) entertainment, including but not restricted to theatres, film agencies, motion picture companies, clubs, bowling alleys, pool rooms; (e) operation of ice cream parlours and soda fountains; (f) manufacture of feathers, plumes and artificial flowers, chewing gum, wine, lace goods, greeting cards, jewelry; (g) retail stores; (h) factory production of stationary and art goods; (i) retail and wholesale florists; (j) retail sale of confectionery, candy, tobacco, books, stationery, news; (k) retail sale of motor vehicles or accessories; (l) retail sale of sporting goods or musical instruments; (m) service stations (gasoline-filling stations); (n) taverns, liquor, wine and beer stores.

(2) Bus boy; charman and cleaner; custom furrier; dancing teacher; dish washer; domestic servant; doorman and starter; elevator operators; greens keeper; grounds keeper; hotel bell boy; porter (other than in railway train service); private chauffeur; taxi driver; waiter.

D. How the Order affects Young Men still attending School:

Young men in the age groups mentioned, now employed, will not be interfered with insofar as returning to school at the opening of the school session in the Autumn is concerned; but young men in the age classes covered, who are now working during their summer vacation, must comply with this Compulsory Order.

E. Procedure to be followed:

All men as defined above must report to an Employment and Selective Service Office not later than July 24th, 1943. Men resident outside a city or town having an Employment and Selective Service Office, who are too far removed to call personally at such an Office, may write to the nearest office in the first instance, and await further directions.

F. Appeals:

If directed to transfer to employment subsequent to interview, a man may, if he objects, enter appeal with a Court of Referees, within 7 days of receiving such direction.

G. Penalties:

Penalties are provided for employers who retain, or take into their employ, after July 24th, 1943, any man covered by this Order except under special permit. Also, penalties are provided for failure of an employee covered by the Order, to register or follow a subsequent direction to employment.

H. Authority:

This Order is issued under authority conferred on the Minister of Labour by National Selective Service Civilian Regulation (P.C. 246 of January 19th, 1943, and amending Orders in Council).

Employers or employees uncertain of the application of this Order in a particular case are advised to communicate immediately with the nearest Employment and Selective Service Office.

Attention is directed to the fact that the Third Compulsory Order, which contains a list of occupations different from the above, also requires certain young men 16, 17 and 18 years of age to report to National Selective Service.

GETTING and keeping help may be a worry, Mr. Farmer, but replacing broken-down farm machinery is a more serious problem.

So, care for what you have by giving it the best you can in lubrication. For proper lubrication will keep it operating efficiently for a much longer time.

McColl-Frontenac farm lubricants will help protect every piece of equipment on your farm. Call on the McColl-Frontenac Representative in your district, without delay.

RED INDIAN MOTOR OIL and RED INDIAN AVIATION MOTOR OIL

Here are two great oils that will lengthen the life of any engine. They ensure full power and economy under all operating conditions. These finer oils combat acid corrosion, friction, waste and wear. They stand up under highest engine heat... they flow and lubricate the moment the engine starts.

TEXACO MARFAK For Wheel-Bearings and Vital Friction Points

This famous lubricant lasts longer and lubricates better under the toughest working

conditions. It is self-sealing and keeps the working lubricant in where it is needed most, prolonging life of bearings and universal joints by keeping out rain, mud and dust.

URSA X** (CANADA) The Perfect Motor Oil for Diesel and Heavy-Duty Gasoline Engines.

Highly resistant to the formation of gum, sludge and carbon; Ursa X** (Canada) keeps rings, ring grooves, valves, screens and filters clean. Provides maximum bearing protection. Ensures full power and lower fuel consumption.

HELP THE WAR EFFORT BY RETURNING EMPTY DRUMS PROMPTLY

McCOLL-FRONTENAC PETROLEUM PRODUCTS FOR THE FARM

SOLDIER of the SOIL

THIS year the Canadian Farmer urgently needs help. He needs your help to produce the food so necessary for victory. Many thousands of farm workers are serving in the Forces, so that the farmer—the Soldier of the Soil—is shorthanded, but shorthanded as he is, he is called upon to produce more food than ever before. Food is one of the most powerful weapons of war. Grains, bacon, dairy products, eggs, beef, fruit, vegetables—FOOD to feed our armies, our allies and our people we must have.

WHAT CAN YOU DO?

You may be a school teacher, student, business or professional man, an office or store clerk—no matter what you are, if you have a few hours, days, weeks, or months of free time this summer, you can do your country and the farmer a great and patriotic service by helping out on the farm. You may be inexperienced, but you still can help. You will find work on the farm healthy and congenial. It will give you the satisfaction of feeling that you have brought Victory nearer.

What you should do NOW!

Consult any special local committee or office established to deal with farm labour placements in your city or town; or Write the Director of the Dominion-Provincial Farm Labour Program at the Capital of your province; or Get in touch with your nearest Employment and Selective Service Office.

BE CAREFUL WHEN USING SULFA DRUGS

According to a recent summary compiled by veterinary authorities, the various sulfa drugs which have proved a boon in saving human lives are also saving the lives of farm animals. For example sulfaguanidine has been found helpful in the treatment of certain types of coccidiosis in poultry, and in calf scour, and also in calf diphtheria. Sulfaguanidine is like wise being used in dealing with coccidial infection in sheep, and in certain cases of enteritis in swine. The sulfa drugs are still too new for all their possibilities and values to be known but there is no question they point the way in veterinary science. However, the Veterinary Director or General of Canada points out that sulfa drugs unless used carefully are dangerous, and on no account must be used unless under veterinary advice and supervision.

NEWS NOTES

Merle G. Summers has enlisted in the RCAF in the aircrew, having enlisted July 14th, and is posted to report for training August 16th.

Dr. Madill and Roi Stone, President and Secretary of the local Rotary Club will leave Sunday to attend the District Assembly for Club executives to be held on Monday in Banff.

Miss Mildred Boyson, who has been away at school and at work for the past two years, is spending a vacation here with her mother, Mrs. M. W. Boyson.

Mr. and Mrs. E. E. Jensen were in Cardston Tuesday afternoon for the funeral services of Mrs. Jensen's mother, Mrs. H. D. Folsom, who passed away Friday night following a long illness. We extend our sympathy to Mrs. Jensen in her sorrow.

C.P.R. Saves Rubber With New Machine

Shown above, with the safety guard removed from the knife for this picture only, to illustrate the operation of the cutter, is a new machine developed at the Canadian Pacific Railway's Angus Shops in Montreal as part of a programme for reclaiming rubber, latest phase of the company's Dominion-wide conservation campaign. The machine prepares worn and burst sections of rubber hose from air and signal connections to be put back into service. The good sections of the used hose are spliced with the aid of a small malleable iron adapter and the reclaimed product meets all safety requirements. In the short time the programme has been in effect five and one-half tons of rubber have been saved with 5,324 air hose and 1,653 signal hose reclaimed to make up that total, according to H. B. Bowen, chief of motive power and rolling stock, who is in charge of the rubber-saving plan. Over the year it is estimated there will be a saving of 30 per cent. in the rubber hose used on the 84,139 pieces of company rolling stock—with locomotives, passenger equipment, freight and work cars included in that total.

BREWERTON'S

NOTICE TO LANDLORDS

Whenever you make a new lease, or renew a lease, whether in writing or an oral agreement, involving a change of tenant, or change in rental, or a change in the services or accommodation to be supplied,

You are required, at the same time, by Order No. 108 of The Wartime Prices and Trade Board, to give the tenant a signed statement, using a printed form (R.C. 40) supplied by the Wartime Prices and Trade Board. This statement must show the maximum rental for the accommodation concerned, and other information prescribed.

You are also required, within ten days, to forward a signed copy of this statement to the nearest Regional Rentals Administration Office.

Penalties are provided for failure to comply with this Order.

These forms are available at all offices of The Wartime Prices and Trade Board.
